

Ms. Cook and Mrs. Britt's September 2017 Newsletter

Hello families! I am so excited for the school year! We will be doing lots of fun activities in September! We will begin to learn our school routine & classroom rules, how to use school materials safely and how to share and have fun with our friends. We will learn about fire safety and have a firefighter obstacle course. Our first field trip of the school year will be at the Huber Height's Fire Station on Brandt Pike, on Friday, September 22nd.

Later in the month we will learn about Space, gravity, stars, the sun, moon and our solar system. We will learn how to make a star and moon pattern and have a "moon rock" toss game.

I encourage parents/guardians to review our monthly educational focuses often with your child at home. We will begin to evaluate each child to see where he/she is socially and academically so we can help your child learn more efficiently. The children will practice how to trace or write their first name. We will work on cutting with scissors safely. Each child will cut a circle shape. We will also have the children begin to learn their phone number and address. Safety information is very important for children to learn. Please review safety information at home weekly.

Please feel free to contact me through email with any concerns or questions! Communication is very important to me. (lindsaycgwright@gmail.com)

Blessings,

Ms. Cook
