No School-Nov. 23rd Happy Thanksgiving

Class Project:

Christmas Bags: Nov. 30th The class will be putting gift bags together to give to Hospice of Dayton. We will be collecting items for the children to make the bags and cards. We will send these to families that are visiting sick family members at Hospice of Dayton. Please donate items for the bags: snack items, tea bags, water bottles, gum, travel shampoo, tooth paste, tooth brush, etc. **THANK YOU!**

This activity is to help children learn to have a giving heart to others that are having a challenging time this Christmas.

Special Thanks:

Thank you to all the parents that sent in supplies. Thank you so much! Our class appreciates everything you have provided.

the Dayton skyline once again as Carillon Historical Park rings in the holiday season.

Helpful tips to know

Developmental milestones are things most children can do by a certain age.

3- to 4-Year-Old Development: Cognitive Milestones

Your child will start asking lots of questions. "Why is the sky blue? Why do birds have feathers?" Questions, questions, and more questions! While it may be annoying at times, asking questions is a normal developmental milestone. In addition to asking "why?" all the time, your 3- to 4-year-old should be able to:

- Correctly name familiar colors
- Understand the idea of same and different
- Pretend and imagine more creatively
- Follow three-part commands
- Remember parts of a story
- Count, and understand the concept of counting
- Sort objects by shape and color
- Complete age-appropriate puzzles
- Recognize and identify common objects and pictures
