

# Jumping for Joy, it's January!

Miss Williams and Mrs. Morgan MWF AM

Hello 2018! I am hoping that this will be a prosperous year for all of you! It has been a joy to see the children grow and learn new things throughout this school year and now that 2018 is here, we will be working hard to continue to teach the children everything they need for Kindergarten!

January is filled with winter fun at preschool! We will learn about snow, ice, transportation, patterns and will have fun with money in our pretend grocery store. We will use these different themes to explore our letters, numbers, shape and colors of the month!

## Educational Focuses for January

Letters: Jj, Ww, Nn

Numbers: 1 one, uno and 2 two, dos

Shape: Rectangle

Colors: Blue, azul and White, blanco

Gentleness: "Let your gentleness be evident to all". Philippians 4:5

## Learning at home

In kindergarten, children are expected to write letters and numbers. During their preschool years, it's important for children to strengthen their small, fine motor skills and prepare to master these skills. Please encourage them to trace, write, color & cut with scissors in their free time at home. Let's get them ready together!
